

vmlinux.o

header.bin

vmlinux.gz

bzImage

The diagram illustrates the components of a bzImage. At the top is a box labeled 'vmlinux.o'. Below it are two adjacent boxes: 'header.bin' on the left and 'vmlinux.gz' on the right. Dashed lines connect the bottom-left corner of 'vmlinux.o' to the top-right corner of 'header.bin', and the bottom-right corner of 'vmlinux.o' to the top-right corner of 'vmlinux.gz'. A large curly brace is positioned below the 'header.bin' and 'vmlinux.gz' boxes, with the label 'bzImage' centered underneath it.
